

THE BLAIRMORE ENTERPRISE

VOL. XXVIII, NO. 6.

THE BLAIRMORE ENTERPRISE, FRIDAY, FEBRUARY 12, 1937.

\$2.00 PER ANNUM.

CARD OF THANKS

We sincerely express our thanks and appreciation to those who worked so earnestly in our behalf and gave us their support at the Polls in the Municipal and School elections on Monday last.

Our heartiest congratulations are extended to the successful candidates.

Especially does Mr. McDowell, who was accorded your mandate, wish to assure you that he will at all times endeavor to serve you on the School Board to the best of his ability.

For Mayor..... C. J. TOMPKINS.

For Council..... M. H. CONGDON.

For Council..... R. OAKES.

For Council..... L. POZZI.

For School..... W. H. CHAPPELL.

For School..... E. McDONALD.

For School..... S. McDOWELL.

PROGRESSIVES' WIN IN BLAIRMORE ELECTION

One of the most keenly fought elections in the history of the Town of Blairmore and Blairmore School District 628 took place on Monday. So keen was the interest that in the opening ninety minutes of the day no less than two hundred and ten voters had visited the poll.

In the election of mayor, Enoch Williams, Progressive, defeated C. J. Tompkins, Independent, by 406 to 382.

For council, Evan Morgan (Prog.) 468; R. Percassi (Prog.) 433, and A. J. Olson (Prog.) 409, won against Robert Oakes, M. H. Congdon and Louis Pozzi, Independents.

For school trustees, Sam McDowell (Independent) 422; A. Bosetti (Prog.) 411, and M. Krkosky (Prog.) 410, won against W. H. Chappell and Ed. McDonald (Ind.), and A. Rae (Prog.).

The defeat of W. H. Chappell, who has sat on the school board for a number of years, came as a surprise, as did also the defeat of C. J. Tompkins for the mayorship.

The weatherman favored the election, being out bright and early with Old Sol to make climatic conditions favorable.

Following the election, a victory dance was held in the Community hall, which was well attended and much enjoyed.

Voting took place in the Columbus hall, a place very suited, where it did not become necessary that anyone should have to stand out in the cold awaiting their turn to vote.

Mr. Larbaletier, returning officer, and all assisting at the polls, are to be congratulated upon the very efficient manner in which the election was carried out.

At this juncture, it is only right that The Enterprise should join in congratulating those elected—mayor, councillors and school trustees; also to congratulate those who also ran, but were unsuccessful.

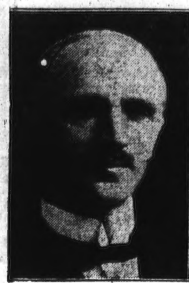

The re-organization of the council and school board will take place in the near future.

The contest at Coleman was confined to election of school trustees. Trustees Graham, Naylor and Reid, retiring, were opposed by W. Fraser, Nelson Fleming and Peter Sharp, who were elected by a vote of practically two to one. Board member Reid was 1936 chairman. Supporters of the former trustees had hoped to see them re-elected to see the completion and official opening of the new high school building, commenced in October and just about completed and ready for occupancy.

The new B. and B. Royalties oil well in the Turner Valley field will net the provincial government \$100,000 a year in royalties.

In a letter, received from Mr. Alex. M. Morrison, who with Mrs. Morrison and Dr. and Mrs. McLean are visiting in California, he states that in Tia Juana a Scotch recipe recently mentioned in The Enterprise is being introduced in the Mexican bars. The cocktail referred to was the tasty drink obtained from stewing dirty dishes, and the Mexicans have decided to adopt it as a select and to name it "Scotchexico."

Increased shipments of Canadian bacon to Britain were forecast after the use of a new type of heated railway car, termed a success by a group of packing officials. Five of the cars, developed by the Canadian National Railways and C. D. Niven, of the National Research Council, brought a shipment to Halifax from Edmonton in perfect condition. Designed to keep perishable goods at a stable temperature, the cars were equipped with burners underneath and outside, instead of at either end inside the car.

RT. REV. PETER BRYCE, D.D.

The people of Blairmore are reminded of the visit of the Moderator of the United Church of Canada, Rt. Rev. Peter Bryce, D.D., to this town this week end. He will arrive from the West on Saturday afternoon and will speak to the Sunday school in Central church, Blairmore, at 10:15, and will preach at a special service in the same church at 11 o'clock. All are cordially invited to attend. The evening service will be held at 7:30 o'clock as usual.

BELLEVUE UNITED CHURCH

An interesting session was held on Sunday week at the Bellevue United Sunday school, when pupils and parents joined in an open service. Prizes, in the form of bibles and books, were awarded to pupils making the highest average attendance. Mr. J. Longworth made the presentations.

Representing the parents, Mrs. A. Rhodes gave an interesting talk, as did also Mr. R. Millar, speaking for the teachers, and Lily Padgett for the pupils. Rev. H. Upton spoke on the point of view of the minister in relation to the Sunday school.

A most pleasing event of the session was the presentation of a bible and hymnary, both handsomely leather bound, to Mr. John Shevels as a token of esteem of sixteen years with the Sunday school, most of which has been in the capacity of superintendent. Rev. Mr. Upton, who made the presentation, paid warm tribute to the splendid years of service by Mr. Shevels to the work of the Sunday school and assured him continued support by the minister, teachers and pupils.

The junior choir rendered several musical numbers in a pleasing manner.

Rt. Rev. Dr. Peter Bryce, moderator of the United Church of Canada, who is to address a meeting in the local church at 11 o'clock Sunday morning, will address the United church congregation at Bellevue at 1:30. He will entrain at Hillcrest station that afternoon for Claresholm where he is to speak in the evening.

In Chicago eighty years ago stores had to keep open from 6 a.m. to 9 p.m. the entire year round. Stores had to be swept up; counters, base shelves and show cases dusted; lamps filled, trimmed and chimneys cleaned; pens made; doors and windows opened; a pail of water and a bucket of coal brought up—all before breakfast.

A cartoon in a down east paper depicted a procession of men and women heading towards a Prophetic Bible Institute, each displaying a copy of the Calgary Albertan. At the institute entrance music chords burst forth from those inside: "O come all ye faithful!" Well, some persons feel today that in order to be considered faithful to Social Credit in Alberta you've got to be a subscriber, a reader of, or in possession of The Albertan. Good, isn't it! Why not adopt some of the poor weeklies in this province who never did or never will know anything about capital.

LIONEL M. PEEL PASSES

The district was shocked to learn of the death of Lionel Moore Peel, which occurred in the Kootenay Lakes hospital at Nelson on Saturday in his 36th year.

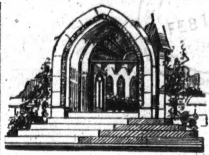

Deceased was born in Neenagh, Ireland. His parents, Mr. and Mrs. Laurence Moore Peel, were ranchers in the Cowley-Lundbreck district for many years. Twelve years ago he married Miss Muriel Murphy, eldest daughter of Mr. and Mrs. M. A. Murphy, of Cowley, and for the past year had resided at Harrup, B.C. Prior to moving west, Mr. and Mrs. Peel resided for a while in Blairmore, later at Corbin.

Left to mourn are his sorrowing wife and three small children, Robert, Iris and Brian; and his parents, Mr. and Mrs. L. M. Peel, of Kamloops.

FORMER BLAIRMORE RESIDENTS SUFFER LOSS AT CRESTON, B.C.

Creston, B.C., Feb. 8.—Mr. and Mrs. James Handley and infant daughter were forced to make their exit through their bedroom window into the prevailing sub-zero temperature of early Saturday morning, when Mr. Handley was awakened by some crackling in the living room, and on opening the bedroom door discovered the main part of the house in flames. They saved only some of their clothing, which was in the bedroom. Mr. Handley, son of Joseph Handley, was a former resident of Blairmore and pupil of the Blairmore school. A number of years ago he moved with his parents to the Creston district, where Mr. Handley, senior, had acquired some fruit lands. The loss is a very serious one.

John Macfarland returned home from Blairmore on Sunday—Brooks Bulletin.

"Serve the Church that the Church May Serve You."

CENTRAL UNITED CHURCH

Rev. Albert E. Larks, Minister

Services Sunday next:

11 a.m.—Senior Sunday School

and Adult Bible Class.

2 p.m.—Junior Sunday School.

7:30 p.m.—Public Worship.

Wednesday—8 p.m., Prayer Service.

Friday—8 p.m., Group Fellowship.

ST. LUKE'S CHURCH NOTES

Rev. A. S. Partington, B.A., Rector

Services Sunday next:

10 a.m.—Sunday School.

11 a.m., Morning service.

Every Thursday at 8 p.m., during Lent, there will be a mission service, with a series of addresses: "Friends of Jesus."

Monday at 7 p.m.: Y. P. Legion.

Tuesday, 7 p.m.: Home League, all ladies are heartily invited to attend.

Friday, 7 p.m.: Young people's meeting.

THE SALVATION ARMY

Coleman, Alberta

Lieutenants Fitch and Frays

Sunday services: Directory class at 10:30 a.m. Sunday school 3 p.m. Salvation meeting 7:30 p.m. Come and enjoy an hour in God's house.

Monday at 7 p.m.: Y. P. Legion.

Tuesday, 7 p.m.: Home League, all ladies are heartily invited to attend.

Friday, 7 p.m.: Young people's meeting.

Transparent resin is being made from coal. It is only about one-third the weight of glass, and unplinterable.

The SNAPSHOT GUILD

DO OUR EYES BETRAY US?

PICTURE-TAKERS are often surprised to discover that, although the camera lens is just a piece of inanimate glass, it sees things the human eye does not. Actually, in a given scene the same images reach the eye as the lens but while they all reach the camera, film some of them do not register on the brain. Does the eye betray us? No, it is because the mind tends to select from the images received by the eye those in which it is most interested and to reject or disregard the rest.

This is something to remember when you get ready to take a picture. Neither the lens nor the film selects. Together they record everything the light transmits. Hence, the disconcerting things that often appear in a photograph because the mind disregarded them when the shutter was snapped—objects that in the print stand out with startling emphasis and which you would almost swear never could have been there.

For example, so many snapshots of landscapes are marred by the appearance of telegraph wires streaking across the sky, not to mention the telegraph poles, or by sign boards and unsightly buildings that went unnoticed when the picture was snapped, jarring a composition that would be otherwise appealing because of the natural beauty of the scene. Or, often in interior views of a home, objects in disorder that were not particularly noticeable when the picture was taken, will make themselves startlingly evident in the photograph. Such a thing as a table cover slightly awry, or a newspaper underneath a chair, or mantel-piece objects that may happen to be disarranged will attract unexpected attention in the print. And who has not seen a charming likeness of a person at most made ridiculous by the appearance of an incongruous object in the picture, such as a sign on a store window, some animal that has wandered into focus, unnoticed, or some grinning spectator in the background?

One of the things that often give us surprise in snapshots of persons is a strong shadow across the face, which in the print spells a good likeness. In taking such a picture, our imagination fills in the dark area satisfactorily, but remember that the camera lens has no imagination.

Shadows will fool the eye, but not the camera lens. The photographer's own shadow did not seem important when he took this picture, but look at the result.

Again, we often let our own shadow large into the picture, as in the snapshot of the decorative lady above who appears to be standing on somebody's head.

The moral is that when you take a picture, first make your eye the camera lens and your brain the film; then you will know before you shoot exactly what is going to show in the picture.

SHE WAS AFRAID TO SHAKE HANDS

Rheumatism in Joints Caused Her Intense Pain

Read this letter from a woman describing the manner in which she was afflicted by rheumatism.

"For several years," she writes, "I suffered with rheumatism of the joints, especially in my hands, and this caused me intense pain. I was even afraid to shake hands with anyone, for it made me suffer terribly. I began taking Kruschen Salts regularly, and after a little while my pains disappeared completely. I am naturally delighted with Kruschen." (Miss K.)

The pains and stiffness of rheumatism are frequently caused by deposits of uric acid in the muscles and joints. The numerous salts in Kruschen assist in stimulating your liver and kidneys to healthy, regular action, and so help them to get rid of this excess uric acid.

WORLD HAPPENINGS BRIEFLY TOLD

Rev. A. W. F. Blunt, Bishop of Bradford, has suggested that the Church of England and the free churches unite in coronation services in parish churches.

An epidemic of broken bones struck Lindsay, Ont. Fourteen leg-fracture cases were treated in hospital, while many broken arms were set and patients sent home.

Foreign Secretary Anthony Eden indirectly invited Germany to participate in League of Nations disarmament committee sessions in Geneva May 6.

Sir Philip Sassoon, air under-secretary, told the House of Commons nine aircraft factories are being built or will soon be constructed in line with Britain's rearmament program.

Dr. H. H. Kung, Chinese minister of finance, announced he had cabled \$300,000 to Admiral C. T. Grayson, head of the American Red Cross, to aid victims of the United States flood.

Twenty-three Alpine soldiers were killed, government officials disclosed, when they were buried under an avalanche of snow while on patrol in the Italian Alps. Bodies of six had been recovered.

According to a written judgment filed in court at Toronto by county court Judge F. M. Field, a parking lot proprietor is responsible for damage occurring to a customer's automobile while in the proprietor's custody.

The Scottish Aircraft and Engineering Company announced in London construction had started on a monoplane of the Clyde Clipper type which will participate in the New York-Paris air race next August.

An Odd Friendship

Resident of Victoria Has Fed Sea Gull For Eight Winters

After being fed from the hands of W. B. Ryan, of Victoria, B.C., for eight winters this sea gull should know his benefactor—and does.

Mr. Ryan instanced a few of the unusual things his odd feathered friend had done.

Once the big bird flew to the hood of his automobile while he was a block away and awaited Ryan's arrival. Several times it has appeared at his club and clamored for a meal.

A member of the firm employing Ryan, was embarrassed by the gull flapping down the street after Ryan. The gull shows up every year in October and leaves in April. Shortly before he leaves on his annual flight he brings along his new mate for Ryan's approval.

Making Strange Test

Fifty white ants (and a recipe for keeping them alive) are wanted by a radio company in London. The ants will be offered waxed cardboard, insulating tape and simulated delicacies. When it has been found what materials they will not eat, anti-proof radios will be built for the tropics.

Paris must build 10,000 apartments to end a shortage.

Modern birds chew their food with their stomachs, or gizzards.

HOW TO OVERCOME ITCHING PILES

If you are annoyed with itching piles or rectal soreness, do not neglect the same or run the risk of an operation. Any itching, soreness or painful passage of stool, is nature's warning, and proper treatment should be secured at once. For this purpose get your drugist a package of Hemorrhoid and use as directed. This formula, which is used internally, quickly relieves itching, soreness and aids in healing the sore, tender spots. Hemorrhoid is a disease which is easily and is highly recommended. It is easy to use and it seems the only safe remedy to risk an operation when a simple remedy, which is so pleasant to use, may be had at such a reasonable cost.

British Crown Lands

Exchanged By National Treasury For King's Yearly Grant

As is customary in Britain, the new King, George the Sixth, will turn the crown lands over to the nation during his reign in exchange for a definite yearly grant from the national treasury. The custom dates back to George the Third, but that monarch did not transfer all of the crown lands, but only enough to gain the sums of money he desired. The Fourth was more impetuous and he was the first sovereign to give up all of the crown lands.

The amount of money that King George the Sixth and his Queen will receive from the nation probably has not been determined. The King will send a message to the Commons requesting that they give consideration to the matter and parliament will appoint a committee. The committee will consider not only the needs of the royal family but the possibility of effecting economies. When King Edward the Seventh came to the throne the provision for the Royal Bouchards was eliminated. Oddly enough, Keir Hardie, Socialist, spoke at that time as a champion of Queen Alexandra and wished to have £50,000 voted to her as a separate grant. It was explained, then, with the king's permission, that £38,000 of the £10,000 being recommended by the committee for the joint Purse would be allocated to the queen.

George the Fifth accepted a joint Purse of £97,800. In recent years he requested that his be reduced to £50,000. King George and Queen Mary were not ostentatious. Whatever the amount for the new King may be it is understood that the nation will gain financially by the arrangement—Toronto Star Weekly.

New Service For Public

Modern Information Bureau Installed By C.P.R. In Montreal

The first information bureau of its kind in Canada was opened in Montreal when the Canadian Pacific Railway put into operation its new telephone bureau, comprising the latest equipment of the Bell Telephone Company, and combining several of the railway's former services. After more than a year's research work on the part of the two companies, the new apparatus has been installed. A specially trained staff permits 24-hour service, with five girls handling train lines, giving information on train times, routes, and passages, parlor and sleeping car fares. By means of a novel switching arrangement, immediate connection is made with the sleeping car reservation service if desired. One telephone call will produce the same information under the new system, as two or three under the old.

Comma Makes A Difference

Onionism Might Have Made Trouble For Ship's Operator

"The Authority for crews effects to be taken out of dock premises is usually signed by the Chief Officer of the ship. In the ordered disorder of ship discharge it is easy to imagine that this officer finds little time to cross the 't's' and dot the 'i's' but the omission of a comma on a certain pass might have had embarrassing consequences for the bearer. The gatekeeper was requested to let the bearer, wireless operator of the steamer—pass out of the docks with two cases containing his personal things and his wife."

It is not recorded if the Port Authority's police constable at the dock gate exercised his right to search outgoing packages in the hope (or fear) of discovering another trunk murder.—P. L. A. Monthly.

Making Air Travel Cheap

New Plane In England Designed For Family Transport

Efforts are being made in Britain to popularize the airplane as a means of family transport. There is now being offered to the general public in that country, and demonstrated over a 5,000-mile circuit, an airplane for which some remarkable claims are being made. It can, it is said, be bought on time, flown, insured and housed at about \$10 a week. It can land or take off in a small field, has a top speed of 80 miles, a cruising speed of 70, and costs less than five cents an hour to fly. Its 10-horsepower engine is said to be easily kept in good order so that of the average small car.—Edmonton Journal.

The expression, "a coon's age," means a very long time, but the coon actually has a life span shorter than that of many other animals of its size.

"She has a head like a doorknob."

"How come?"

"Any man can turn it." 2189

VERY YOUNG 'MISSIES' ADORE RUFFLES ON THEIR DAINTY DRESS-UP FROCKS

By Anne Adams

Here's the joy to please 'the feminine heart' of a very young fashion-plate—a dainty Anne Adams frock that's a trilly delight to behold, for even its matching panties are trimmed with fine ruffles! Who little girl wouldn't be the envy of her playmates at a very special party when she appeared in Pattern 4314 made up in dotted swiss, sheer embroidered organdy, or crisp taffeta? Mother will like this frock for the easy making, and find it so simple to finish in a brief time, that she'll want to plan several other versions in varied fabrics. And do notice the wide variety of "finishing touches" this frock may boast: puffed sleeves may be omitted, and a ruffled version substituted, while buttons may be used instead of bow-ties.

Pattern 4314 is available in sizes 2, 4, 6, 8, 10, and 12. Size 2 takes 2½ yards of 36 inch fabric and 1½ yards of ruffling. Illustrated step-by-step sewing instructions included.

Send twenty cents (20c) in coin or stamps (coin preferred) for this Anne Adams pattern. Write plainly: Size, Name, Address and Style Number, and send order to the Anne Adams Pattern Dept., Winnipeg Newsprint Co., Ltd., 175 McDermott Ave. E., Winnipeg.

Noted War Correspondent

Sir Percival Phillips, Veteran Journalist, Dies in London

Sir Percival Phillips, 59, noted war correspondent, who recently was brought to London suffering from an illness contracted in Morocco, died of acute nephritis.

For more than 35 years Sir Percival reported wars, revolutions, disasters and historic events in all parts of the world. In 1919 he accompanied the then Prince of Wales on his Canadian tour and as recently as a few months ago was in the Dominican.

He was born in the United States and, after reporting the Greco-Turkish and Spanish-American wars for American newspapers, joined the staff of the London Daily Express. He covered the Jamaica earthquake of 1907, revolutions in Catalonia and Portugal, riots in France, the Italian campaign in Tripoli, the Coronation Durbar in India and the Balkan war of 1913.

At the outbreak of the Great War he was in Belgium and remained there until the fall of Antwerp late in 1914. Then, with the exception of a brief assignment to the Irish rebellion in 1916, reported the activities on the western front. He was one of the first five accredited war correspondents with the British forces.

Since the war he has reported on every major international event or trips by members of the royal family.

Cure For Seasickness

"Suggestion" is the best cure for seasickness, Dr. A. Rose, who has crossed the Atlantic 50 times and survived cyclones in the Caribbean, declares. "Suggestion will cure seasickness where all drugs have failed," he says in an article in the British Medical Journal.

Upward of 800 uses are recorded for the various parts of the palmyra palm, which is considered the most useful plant in the world.

The earth's temperature increases on an average of one degree Fahrenheit for every 60 feet of depth.

As huge as it seems to us, our earth is only the fifth largest planet.

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rarin' to go

The liver should pour out two pounds of bile into the bowels daily. If this bile is not flowing freely, you food doesn't digest. It is not in the bile. Use bile to get your stomach. You get constipated. Harmful acids go into the body and you feel sick, weak and the world looks black.

At the same time, bile doesn't always get at the cause. You need something that works on the liver as well. It takes time good, old Carter's Little Liver Pills to get those two pounds of bile flowing freely and make you feel "up and up." Harmless and gentle, they make the bile flow freely. They do the work of nature but have no calomel or mercury in them. Ask for a Carter's Little Liver Pills by name! Stubbornly refuse any cheap substitutes.

Temperature 37.5 degrees F.

Time: 8 to 10 minutes.

1 cup shortening; 1 cup brown sugar; 1 egg; 2 cups Royal Baking Powder; 1 teaspoon baking powder; 1 teaspoon salt; 1 teaspoon cinnamon; 1 teaspoon cloves; 1/2 cup milk.

Cream shortening and gradually add sugar. Add unbeaten egg and mix thoroughly. Add flour and mix. Sift together the flour, baking powder, salt and spices and add to first mixture. Chill and then roll into a rectangular shape about 1/4 thick. Spread with date filling and roll as for pie. Chill and then roll tightly in waxed paper and chill for several hours. Slice with a sharp knife and bake 8 to 10 minutes in a moderate oven.

DATE FILLING

1 1/2 cups pitted dates; 1/2 cup sugar; 1 cup water; 1 teaspoon lemon juice; 1/2 cup finely rolled peanuts.

Cook dates, sugar, water and lemon juice until thick. Cool and add nuts.

Recipe by Mildred Mae MacKenzie Copyright.

APPLE COBBLER DE LUXE

3 cups peeled and cut cooking apples; 2 tablespoons butter; 1/2 cup water; 1/2 cup brown sugar; 2 tablespoons baking powder; 1 teaspoon salt; 1 tablespoon sugar.

1 egg; 1/2 cup milk; 1/2 cup chopped nut meats.

Fill greased baking dish half full of apples. Dot with butter and add sugar, cinnamon, nut meats and add dry ingredients. Mix beaten egg with milk and stir into dry mixture. Fold in nut meats.

Fill greased baking dish half full of apples. Dot with butter and add sugar, cinnamon, nut meats and add dry ingredients. Mix beaten egg with milk and stir into dry mixture. Fold in nut meats.

Fortunate cooks are a pleasing accompaniment to this dessert.

Works in Railroad Shop

Woman Has Job Of Operating Huge Travelling Crane

"I would rather operate a giant travelling crane than run a beauty parlor."

That is how Mrs. Annabelle Cooper, of Battle Creek, Mich., who is divorced and married, regards her job, believed to be the only one of its kind in the country filled by a woman.

Furthermore, she can see nothing unusual about her occupation.

"I'm more satisfied in this work than I would be running a beauty parlor, making dresses, or doing office work," Mrs. Cooper, who works in the Big Four Railroad shops, said.

"If there is a thrill in operating this big machine that no other work could give me and on top of that this job is doing something distinctly worthwhile."

Mrs. Cooper began piloting the big crane during the world war. To-day her employers are so pleased with her work they prefer her retaining the job in preference to any male employee in the shop.

Cousin Florence: "Well, Tommy, and so you like your little friend Philip, do you?"

Tommy: "Well, I don't exactly know; but I think he is rather odd, for he blows his own nose!"

Scientists have traced Hally's comet back to the year 240 B.C.

SUNDAY SCHOOL LESSON FEBRUARY 14

JESUS THE GOOD SHEPHERD

Golden text: I am the good shepherd; the good shepherd layeth down his life for the sheep. John 10:11.

Lesson: John 10:1-42.

Devotional reading: Ezekiel 34:11-16.

Explanations and Comments

Jesus the Good Shepherd, verses 10-18. I am the Good Shepherd. Good does not mean here kind, but rather genuine, true, as is shown by the contrast with the thief and the hireling. Compare Ps. 23; 80; Isa. 40:11; Ezek. 34:23; 37:24. The good shepherd layeth down his life for the sheep. "Ask an English shepherd about his flock and he can tell you the number and value. There is before him so much stock convertible into so much money. But beneath the heavenly skies and the clear, starry nights of Palestine there grows up between the shepherd and his flock a union of attachment and tenderness. It is the shepherd who is the shepherd. At any moment their protector may have to save their lives by personal hazard. Sometimes the shepherd of an armful of grass in the parched summer days he must climb precipices almost perpendicular and on a narrow ledge of rock where the wild goat will scarcely venture. And thus there grows up between the shepherd and the dumb creatures he protects a kind of friendship. You love for whom you risk, and they love you." (F. W. Robertson.)

And other sheep I have which are not of this fold. Nothing could more emphatically call attention to the breadth of Jesus and the world-wide reach of his saving purpose than that he should in an allegory such as this, make reference to those "other sheep" and reach out in thought to a world which he longed to bless and save. It may be that his immediate thought was only of those who were outside of Israel altogether, but we know that his interest was far beyond these and took in everyone wherever he found.

Therefore doth the Father love me, said Jesus, because I lay down my life, that I may take it again. No one taketh it away from me, but I say it of myself. I have power to lay it down, and I have power to take it again. The death he died for the sake of saving to his flock was wholly voluntary.

Must Settle For Accidents

Ontario Has Reciprocal Agreement With Six American States

The Ontario government announced that Ontario motorists failing to satisfy motor accident judgments against them in six states of the United States and the District of Columbia, will lose drivers' licenses and car permits.

A reciprocal agreement along these lines has been reached with Colorado, Indiana, Kentucky, Maryland, Oregon, West Virginia and the District of Columbia, it was announced. The Ontario Motor Vehicles Act provides suspension of licenses for any motorist who fails to satisfy a judgment against him for more than \$100, within 15 days of the judgment becoming final.

Until the arrangement with the States, the act has applied to judgments only in Canadian provinces.

Celebrate On Christmas

Some Prominent Persons Who Were Born December 25th

The Duchess of Gloucester, General Evangelina Booth, leader of the Salvation Army, and four Peers are among those who will celebrate their birthdays on Christmas Day. It was on the first Christmas Day of the century that the Duchess was born. The "General" is the fourth leader of the Salvation Army, which her father founded, but over 70 years ago, and the third member of the family to hold the office. According to a statement she once made she does not like birthdays.

Sponges are not always yellow. While living, they may be black, blue, green, indigo, lilac, red, yellow, and white.

When You Want to Alkalize Stomach Fast

Try This Amazing Fast Way—The "Phillips" Way Millions Are Adopting

On every side today people are being urged to alkalize their stomach. And thus ease symptoms of "acid indigestion," nausea, stomach upsets. To gain quick alkalization, just do this: Take two teaspoons of PHILLIPS' MILK OF MAGNESIA 30 minutes after eating OR—take two PHILLIPS' Milk of Magnesia Tablets.

Relief comes almost at once—usually in a few minutes. Nausea, "gas"—fullness after eating and "acid indigestion" pains leave. You feel like a new person.

Try this way. Get either the liquid "Phillips" or the remarkable new Phillips' Milk of Magnesia Tablets. Each one equals a teaspoon of the liquid. Only 25¢ a box at all drug stores.

ALSO IN TABLET FORM: Each tablet is the equivalent of a teaspoonful of liquid. Phillips' Milk of Magnesia Tablets.

MADE IN CANADA

Equipped With Television

New London Theatre Will Have All Latest Improvements

Shops, side shows, a cocktail bar, dance floor, hairdressers and manicurists. All these will be found in the new Prince of Wales theatre, which is being built in London on the site of the old one—a West End landmark.

When the theatre closed on January 16, a farewell performance was broadcast and many stars whose careers began at the theatre appeared.

In the big bar—66 feet by 40 feet—will be the dance floor, with experts to give lessons, and cabaret artists will give turns in the intervals of the stage shows.

The new theatre will have a complete television installation, as well as the ordinary talkie apparatus.

For the use of the artists there will be a swim-pool on the roof. The Prince of Wales theatre is one of the oldest in London and when the new building reopens it will still be a non-stop show as at present.

Legal Adviser Knighted

Conferred On Walter Monckton By King George VI.

King George VI. ceremoniously conferred one of the first knight-hoods of his reign upon Walter Monckton, legal adviser to former King Edward VIII. The ceremony of touching the new new knight's shoulder with a sword took place in the drawing room of 145 Piccadilly, still the home of the king and queen, instead of amid the customary surroundings of Buckingham palace.

During the world war one spy evaded detection by placing reports in his artificial eye.

ITCHING

TORTURE STOPPED IN A Minute!

For quick relief from the itching of itching hemorrhoids, soreness, itching, and other skin eruptions, apply this Ointment, Hemorrhoid, Itch, D.D. PRESCRIPTION. In 30 seconds it stops the itching. It is the most intense itching instantly. A 25¢ trial bottle, no doctor's fee, no money back. Ask for D.D.D. Prescription.

Don't Risk Spoiled Bread!

BAKE WITH ROYAL YEAST!
It's always full-strength

PHEW! SPOILED DOUGH! I SHOULD HAVE USED ROYAL

You get every cake of Royal Yeast in an airtight wrapper... sealed against contamination

To bake a loaf that's sweet-flavored, fine-textured, and truly appetizing, you need a good yeast... one that's full-strength and pure.

Royal is always dependable. Each cake is protected by an airtight wrapper, to insure absolute freshness, full leavening power, purity. It's the only yeast with this special protection.

For 50 years, Royal has been the standard. Actually 7 out of 8 Canadian housewives today prefer Royal when they bake with a dry yeast. They know they can always depend on Royal for good results.

Insure yourself against baking failure. Get a package of Royal today.

Send for FREE booklet

To get uniform results in bread baking, it is important to keep the sponge or an even amount of yeast. The "Royal Yeast Book" gives instructions for the cake of dough. Send coupon for free copy of the book, giving 25 tested recipes for tempting breads, coffee cakes, buns and rolls.

A Dictionary Word
J. C. Kirkwood, in Marketing, says "tidy" is a dictionary word, and it does not mean jewelry or any such thing. It means a maulin cloth. I came across this word in one of Charles Lamb's essays—written well over 100 years ago, and was greatly startled. Immediately consulted dictionaries, and, behold, the word was there.

The grin of Africa has a head like an ox, the body and flowing tail of a horse, and the limbs of an antelope.

WEAK, LISTLESS, NO APPETITE

Troubled with Constipation, Couldn't Sleep; "Fruit-a-tives" Brought Quick Relief

"For many years I was troubled with constipation," says Mrs. M. E. Stephens, N.B. "I was weak, listless, and I spent a good many nights of broken rest. I started taking Fruit-a-tives, and almost at once was enjoying my food. My complexion improved and I began to sleep soundly the entire night. Fruit-a-tives are made from natural fruit-herbs. They act to stimulate the liver and flow of bile, cleanse the elimination of wastes and poisons and tend to purify the blood stream of acids that often cause ill-health. For sale everywhere 25c and 50c. Insist on genuine Fruit-a-tives."

Thou Shalt Not Love

— A NOVEL BY —
GEORGIA CRAIG

CHAPTER XVII.—Continued

"That was the only thing she had not told Michael—about Tut-Am-en-Ra's curse. She could not bring herself to that, thinking of what terror there would be in his eyes. She had told him much about herself, though, of her parentage, and mentioned that her father was an archaeologist who had taken her to Egypt with him, but that he was dead now, and she was alone.

Michael was astonished and pleased. "Ellison," he mused. "The Professor Bruno Ellison? Why, he was famous, Starr, darling." He laughed exultantly. "Wonder what Stephanie and the rest of them who are living on the glory of ancestors who accomplished things in the dim past would think if they knew you were his daughter?"

In a way she explained how she had come to be in the La Luna that night, told of her loneliness and her yearning to see a little of life, the bright lights. Michael said:

"What an idiot of a bouncer I was! I should have seen it the minute I clapped eyes on you. . . . Perhaps I did, but in my stubbornness refused to see! Thank heaven all that's forgotten, Starr—I'll spend the rest of my life making up to you, if I can."

But nothing about the curse of Tut-Am-en-Ra! Nothing of the six months of life that had been given her!

Safe in the arms of a flesh and blood lover it was difficult to realize that she had ever allowed her life to be dominated by a three-thousand-year-old curse. This was Twentieth Century America. A million people would laugh off the curse of Tut-Am-en-Ra, as mere foolishness belonging to a forgotten age.

But then, she remembered, a million people had not seen her father and John Lessing die. They had not seen that ancient priestess, Anasun, whom her lover would protect even in death, crumble into dust. . . .

Fervently Starr reasoned with herself. Trying to ascribe the deaths of the two men to natural causes. Neither of them were young—it had been a strenuous expedition to the desert could sap men's strength and energy. . . . Trying to explain away her own physical and mental depression as due to the great natural cause of modern life.

She reiterated to herself: "It can't hurt me now. It can't! I won't let it! I'll fight it for Michael's sake!"

Then startlingly came the first shadow to cut through her happiness. They had completely lost touch with city life, with their friends, and with what everybody was doing. They had not even troubled to pick up the daily papers that were left scattered around the living room and on the porch. The old farmer's police had said and smiled. They knew what it was to live in a world apart!

Michael had gone down to the village alone one morning and Starr, waiting for him in the living room, cardlessly picked up a weekend paper that lay on a table in the pile. It thrust glaring headlines before her eyes.

"PLAY-GIRL" ELOPES
MARRIED AT MIDNIGHT
MICHAEL FAIRBOURNE, HER FUGITIVITY AGENT

"Starr Ellison, New York's famous 'Play-Girl' author of the alleged autobiographical book of that name, who whose love affairs have furnished the smart set with much conversation, eloped last night with Michael Fairbourne, who acted as her publicity representative for the publishing house of Tarrance.

"The elopement was on the eve of Fairbourne's proposed marriage to Stephanie Deane, a girl of no note, New York's oldest and most distinguished families, and the two were guests at a house party being given by Miss Dale in Fairbourne's honor at her beautiful Westchester home."

A sudden clink struck Starr. In the headlines again. Both of them! She hit the paper hastily. She did not want Michael to see it. It was too unpleasant a reminder of all they had run away from.

All in a moment grim fingers were reaching out from that other life, trying to draw her back into the hideous merry-go-round. She shuddered. This farmhouse was so filled with beautiful, vivid memories. And now. . . . Lance—Stephanie—

She had not got around, to being her now cheerful self when Michael got back from the village. Just a little later he came in. He was carrying a pile of letters in his hand. He announced briefly:

"The honeymoon is definitely over when the bridegroom feels the urge to get back to work!"

Do THIS FOR A COLD

Quick Relief with 2 "ASPIRIN" Tablets

The modern way to treat a cold is this: Two "Aspirin" tablets the moment you feel a cold coming on. Repeat, if necessary, in two hours. If you have a sore throat with the cold, dissolve 3 "Aspirin" tablets in 15 glass of water and gargle with this twice. The "Aspirin" you take internally will act to combat fever, aches, pains and the cold itself. The gargle will provide almost instant relief from soreness and rawness of your throat. Your doctor, we feel sure, will approve this modern way of treating a cold.

"Aspirin" tablets are made in Canada by the Bayer Company, Limited, of Windsor, Ontario.

TRADE-MARK REG.

Then he laughed, slipping an arm about her shoulders as he sat down on the arm of her chair.

"Seriously, Starr, I'm afraid we'll have to cut short our stay in Paradise. I had no idea work could pile up as it has, and the old man is getting restless. There is no season of the year for extended—or unexpected—vacations. Do you think we can drag ourselves back to New York tomorrow?"

Swift alarm leaped into her dark eyes. She cried, looking up at him with tense pleading:

"Oh, Michael, I don't want to go back! Not tomorrow, nor any other day!"

Michael bent down and kissed her. "But darling, we can't rusticate here forever. Of course it will be a bit of an ordeal for us both to face, considering the way we burned our bridges behind us. But we'll face the music. Heads up, honey? Who cares! We've got each other—that's all that counts—really. I have to get back on the job and make a lot of money, you know, for you and for our family-to-be."

It was the first time since their marriage that he had mentioned children. It affected Starr quietly, arousing disturbing recollections of other occasions when babies had been mentioned. And as much as she yearned for them, babies were among the forbidden things of her life. Which Michael did not know, of course, and must never know.

One commandment—"Thou Shalt Not Love"—But there still remained—"Thou and Thy Children And Thy Children's Children—". How could she bring his children into the world, Michael's children—to be heirs to a terrible inexorable curse!

Suddenly she was overcome with a wave of her old depression. But her fear was increased a hundredfold now, because of the complication of being Michael's wife.

She felt herself drifting back. As if it were somebody else's voice, she heard herself saying dully:

FAGGED OUT?

"I don't want to go back. Our love here is so perfect, Michael. It won't be the same."

Michael said, with that cheerful, careless laugh of his:

"Of course it will be. I'll still throw you a kiss now and then."

All the time his eyes were laughing at her. He did not understand, of course.

Driving back to New York, they discussed their living arrangements. Starr was oddly detached, as though she had little interest in the matter, but Michael was enthusiastic about their own home-to-be. He finally decided that they would stay in the penthouse with the Egyptian furnishings, for the time being, but their real home was to be of the most modern.

Imagine you'll be more comfortable among your own Larres and Penates, Starr, darling," he insisted, "than in my own entirely manish bachelor domain. But we won't stay there. We'll come out of Egypt as soon as we can. No mummy-buggering for us! We're going to have the kind we can throw open wide and look out on the world!"

He laughed then. "By Jove, I never thought of it before, but I wonder if windows like that wouldn't be just the thing to keep babies from falling out!"

Starr forced herself to smile up at him. "They use them in Egypt," she reminded, "to keep wives in. You'll not need them for me, Michael-Hassan."

Sapphira was overwhelmingly glad to see both of them, and fluttered over them like a comfortably feathered hen who had just found her lost chickens.

"Leavie me, Miss Starr!" she exclaimed. "How good you do look! Won't I tell you what you needed was to get married and stop all your foolishness?"

Starr laughed back at her, but it was happy. "If I imagine before we're very long, Sapphira, that we're going to discover there are a good many who'll consider I've committed the height of my 'foolishness'."

"We don't care, do we?" Michael asked, and Starr laid into his arms. "We should we, darling?" He kissed her.

Among the first things Starr did when she was settled in the city again was to send the diamond and fire opal bracelet back to Lance Marlowe, by an armed messenger.

The terrific monetary value of the thing had prevented her from sending it back through the mails before. But in the country it had been carefully hidden, kept out of sight. She enclosed no note with the package when she saw her wearing it—and after, Starr tried to laugh it off.

"Oh, you'll find someone else who will wear it much better than I ever could, Lance," she told him.

Lance said quietly: "My taste must have changed, Starr, or maybe I'm getting old. I haven't been able to find anyone else yet—or wanted to."

But Lance Marlowe had not changed, as Starr discovered in the next few days. He never wore change. She shuddered deep as he added in a whisper: "My yacht is being renovated. It may not be the proper season for it, but I'm sailing soon for Hawaii, alone. He looked at her oddly, and Starr recognized that in his mind she was still "Play-Girl." He could not reconcile any idea of "Play-Girl" being faithful, even though married. "I had hoped—"

(To Be Continued)

Operates Motorless Plane

Italian Travels Some Distance Under His Own Power

Vittorio Bonomi, Milan, Italy, laid claim to a successful "human flight" after reporting he had travelled five-and-a-half hours in a monoplane operated by his feet and legs. The ship was designed by Enea Bossi.

(The artist Leonardo da Vinci spent years in vain attempts to perfect such a device.)

The cabin "plane" was operated by two propellers which received their power from a type of bicycle mechanism worked by the flier's feet. Bonomi declared the power was "stepped up" by an arrangement of cogs and shafts.

Not A New Science

Plastic Surgery Has Developed Gradually From Early Background

The plastic surgeon's job is for the most part a grim business. People are injured in accidents, by burns, and damage caused by removal of growths form the bulk of the specialist's patients.

On the surface, plastic surgery might seem to be the newest of medical techniques, but it is not, according to Dr. Fulton Riddison, one of Toronto's best known specialists. During the war Dr. Riddison worked side by side with Sir Harold Gillies, noted English plastic surgeon, whose recent operation to restore the features of a girl horribly burned was described as a "miracle."

"During the war we thought we had got hold of something new," said Dr. Riddison, "but later when we had time to go into the matter we found that there was an early background. The science had developed gradually."

But the war did for plastic surgery what it did for many early inventions, namely the aeroplane. It lent an urgent need for "forced development" and brought results never before obtained. Surrounded by men mutilated by shot and shell, doctors simply had to "do something." As a result, hundreds of men now are able to lead a normal life.

But it was several years after the war that a Dutch scientist, Dr. Esser, made the greatest single improvement in plastic surgery. "Skin grafts had a tendency to 'float up' because of accumulated blood and serum under the new skin," said Dr. Riddison, "and then Dr. Esser wrote an article describing the use of pressure on the grafted area, resulting in the new skin growing to match the surrounding skin."—Toronto Star Weekly.

New Set-Up For India

First Responsible Government Is Soon To Be Elected

Thirty million electors—of whom more than 5,000,000 are women—will shortly vote in British India on the first stage of responsible government. It's a form of responsible government rigorously bound about by limiting safeguards, but it's a beginning.

The beginning of the great scheme to create a United States of India.

The Government of India Act of 1935 contemplated creation of a federated India including the provinces of British India and those native states which bewilderingly dovetail into the provinces of British India, states not actually British territory, who subjects are not British, yet lying across main arteries of communication, vital to the welfare of India as a whole.

The section of the act granting autonomous government to the provinces of British India does not need to wait for the wider federal scheme. It comes into force April 1. Under it, legislative assemblies will be elected in 11 provinces of British India. Legislative councils or upper houses will, in addition, be chosen in Madras, Bombay, Bengal and United Provinces, Bihar and Assam.

A True Westerner

First White Child Born in Battiford Dies in Winnipeg Hospital

Roderick W. McKinnon, 52, chief engineer of the reclamation branch of the Manitoba department of public works, died recently in a Winnipeg hospital. He had undergone an operation.

Born in Battiford, then in the Northwest Territories, in 1884, the son of a Hudson's Bay Company factor, he was the first white child born in that north Saskatchewan city. Both his parents died a year after he was born, and Mr. McKinnon was taken to relatives in Sydney, N.S. He graduated in engineering from Dalhousie University.

Coming to the west in 1907, he joined the staff of the Canadian Northern Railway in Alberta, entering the Manitoba government service in 1912. A widow survives.

Found Fishing Profitable

Australian Pulled In Valuable Ornament Which Had Been Stolen

Harvey Bachelor dropped his bent-pine fish-hook into the waters of Darwin Creek, Northcote, Australia, and waited for a fish to bite.

He felt a tug at his lines and pulled in a silver ornament.

He tried again and pulled in another glittering piece.

Finally he took his catch—valued at \$800—to police where the articles were identified as loot from a Synagogue burglary.

Harvey was suitably rewarded by members of the community.

Little Helps For This Week

The Lord is my light and my salvation, whom shall I fear? The Lord is the strength of my life, of whom shall I be afraid. Psalm 27:1.

Thou hidden source of calm repose.

Thou all-sufficient Love divine, My Help and Refuge from my foes.

Secure I am while Thou art mine. And lo! from sin and grief and shame,

I hide myself in Thy dear name.

Whatever troubles come on you of mind, body or estate, from within or from without, from friends or foes, though you be lonely, children of a heavenly Father be not afraid. Whatever befalls thee create it not from the hand of any creature but from Him alone, and render back to Him the purifying and subduing of thyself. What can harm thee when all must first touch God. How He rejoices over a soul which, although it is surrounded on all sides by suffering and misery, does that upon earth which the angels do in heaven, namely loves, adores, and praises Him.

An East Indian Flower

Owed By Chinese Girl Blooms After 105 Years

The delayed bloom of a flower owned by Miss S. Y. Chao, daughter of the manager of a Chinese newspaper in Shanghai, has just been witnessed after a lapse of 105 years. Known as the vapour, or, sometimes, East Indian flower, it is one of three specimens in the entire Far East, and has been in the Chao family for many generations. Some vapour flowers, it is stated, have been known to live as long as 300 years without blooming.

Seed Exchange Plan

With somewhat more money available for the drought areas of Alberta, the seed exchange plan operated successfully during recent years will be continued during 1937. Basis of the plan is that farmers in Alberta exchange their surplus grain for registered and certified varieties and, with certain limitations the Dominion will bear shipping charges.

"What do you think of this new mechanical action picture?" "Well I wouldn't stand too close to it in that suit."

Lawyer: "Get my broker, Miss Jones."

"Yes, sir, stock or pawn?"

BELLEVUE HAPPENINGS

Mrs. E. C. Coastick and Misses Kathleen and Dorothy were hostesses at a nicely arranged party on Saturday evening, in honor of Miss Violet Bradley, who is spending a vacation here. The first part of the evening was spent in whist, prizes for which were won as follows: Miss Ruby Cousens, first; Miss Violet Bradley, second. After cards a dainty luncheon was served, and the remainder of the evening was spent in games and singing.

Mr. W. Innes, local bank manager, who is also manager of the Hillcrest branch, was forced to make the journey to Hillcrest on Tuesday morning on snowshoes, owing to the heavily drifted roads.

Miss Kathleen Coastick, who is teaching north of Lundbreck, spent the week end at her home here.

Dan McLaifferty, who has been attending the provincial school of Technology and Art at Calgary for the past six months, returned home over the week end.

The Reward

A Scotsgman, leaving his friend's house, where he had been paying a visit, held out a nickel and a dime, saying, "Now, Sandy, which one will ye hae?"

Young Sandy, being a cute, wee beggar, said: "Ah, Mr. MT'vish, I was always taught not to be greedy, so I'll hae the wee one!"

MT'vish, not to be outdone, replied: "Well, Sandy, for being a good boy, and not being greedy, I'll gie the big one to ye."—Montreal Herald.

Jim: "What did you have in your garden last year?"

Dora: "Plymouth Rocks, Leghorns and Rhode Island Reds."

Read what Western Canadian women say about the **QUAKER** Easy method of Baking

"NO OLD-FASHIONED BAKING METHODS FOR ME. I USE QUAKER FLOUR AND THE QUAKER EASY METHOD OF BAKING."

Mrs. W. A. BEAM, Yukon, Sask.

"Any woman who hasn't tried it should do so and save herself a lot of work and time."

AND so do thousands of the best cooks in the West... in every community... in every community. Because what Mrs. Beam says is true... the Quaker Easy Method of Baking with Quaker Flour does save time and work. Here's why... you have no kneading... no sponge to set overnight... but best of all, you'll be sure of perfect results always.

It is made by Quaker's own particular method of milling—which assures you of exceptional baking results.

Send for FREE Booklet describing the Quaker Easy Method of bread baking.

The SNAPSHOT GUILD

PRINT "DODGING"

Pictures may be improved during enlarging by controlling tones with a "shadow brush."

WHEN an advanced amateur or professional photographer shows some of his beautiful salon pictures to a group of interested but uninitiated people, some of them are sure to ask questions such as these:

"How in the world do you get those lovely tones? How did you make this picture so dark in this part and light in that? How did you get the soft effect in this one? How did you get the light to shine so brightly on the principal object and scarcely at all on the rest of the picture? How do you make these objects in the shadowy parts dim yet visible; and objects in the light parts to stand out so distinctly? My camera won't take pictures like that."

And the cryptic answer is likely to be, "Neither will mine, exactly." "Then, how do you get all these different gradations in shadow tones? These pictures are like paintings. Do you touch up the negative with something?"

And the answer will be, "No, I do not touch up the negative; I dodge the print."

"Dodge the print? What do you mean—'dodge'?"

Then comes an explanation of a method whereby a very ordinary picture, as recorded on the negative, may often be transformed into a work of art in the process of making an enlarged print of it. "Dodging" is the slang of photography, means interrupting some of the light passing through the negative to the sensitized paper during the printing of the picture. "Dodging"

may be done in contact printing, but more effectively in making enlargements. It is done by holding something opaque between the light source and the paper, such as a piece of cardboard, in such a way as to keep the light from striking a certain area for a certain portion of the time. Thus, that part which continues to receive the full light will print darker than the part from which the light is held back. In other words, the light is caused to "dodge" a certain area.

Virtually, the shadow from the cardboard in the hands of the photographer is used as a paint brush. It serves to light the dark parts. In another way, a print is "dodged" by using a piece of cardboard with a hole in it. The hole lets through a pencil of light, which is manipulated over the surface of the paper and serves to darken the light parts.

The intelligent use of a "shadow brush" or "light brush" in this fashion requires a preliminary study of the negative or a contact print as it would ordinarily register in order to discover where "dodging" would improve the picture. Often it means a number of trials before the result is satisfactory.

Amateurs who do not enlarge their own negatives may suggest to their photo finisher how they think a print may be improved by "dodging," and ask him for a special job on it. Of course, the greater satisfaction comes from doing this work yourself. But that is the way many of the lovely effects we see in salon photographs are obtained.

JOHN VAN GUILDER.

THE LADIES' AID

The old church bell has long been cracked

Its call is but a groan,

It seemed to sound a funeral knell

With every broken tone.

We need a bell, the brethren said,

But taxes must be paid;

We have no money we can spare,

Just ask the Ladies' Aid.

The shingles on the roof were old,

The rain came down in rills,

The brethren slowly shook their heads

And spoke of monthly bills.

The chairman of the board arose

And said, "I am afraid

That we shall have to lay the case

Before the Ladies' Aid."

The carpet had been patched and

patched

Till quite beyond repair,

And through the aisles and on the

steps

The boards showed hard and bare.

"It is too bad," the brethren said;

"An effort should be made

To raise an interest on the part

Of the members of the Aid."

The preacher's stipend was behind,

The poor man blushed to meet

The grocer and the butcher as

They passed him on the street.

But nobly spoke the brethren, "The

Pastor shall be paid;

We'll call upon the treasurer,

Of our good Ladies' Aid."

"Ah," said the men, the way to heaven

Is long and hard and steep;

With slopes of ease on either side

The path is hard to keep,

We cannot climb the heights alone,

Our hearts are sore dismayed;

We never shall go to heaven at all

Without the Ladies' Aid.

—Selected.

Local Speaker: "What we need is

a working majority, and then—"

A voice from back of Community

hall: "Better reverse it, mister.

What we really need is a majority

working!"

One very noticeable feature of the election was the splendid spirit of harmony displayed throughout the campaign and signs of good will that followed the contest. The defeated were not backward in extending congratulations and well wishes to those elected to office.

FAMILY LIMITATIONS

and the dissemination of sane and safe information thereupon is gaining great headway in the U.S. In November last the U.S. publications announced the results of a great straw vote taken on the subject by one of the largest periodicals—and it was found that over 75% were in favor of enlightening the public.

So, in all probability, we shall see within a short period the dream of Margaret Sanger and Dr. Eva Fay fully realized. They have both advocated giving the people full information, claiming such enlightening of the public would effectively reduce the fatalities attributable to illegal operations. Dr. Fay has always been very glad to lecture on the subject—and many thousands of our people have been long acquainted with Dr. Fay's Compound—in fact it may always be found in the homes where there is concern over retaining the health and beauty of the better half. The worry of the month, which so easily mars a woman's face and makes her prematurely old, is eliminated by the keeping of Dr. Fay's Compound at hand, because it is absolutely safe to take and most certain in its expected results; and the cost is negligible. If you wish to avoid worrying and be absolutely sure, send by airmail five dollars to the Fay Company, 147 Fay Bldg., Vancouver, B.C. Airmail 25c extra. You may be in need of Dr. Fay's compound in the future if not now. It will be to your interest to cut this ad out at once. Refer it to some one. State age when writing. Not sent C.O.D. Not sold in drug stores. Dr. Fay's booklet on "Family Limitations" 25c the copy. A very remarkable work.

A curio of the sea—a live blue lobster—has been captured near Yarmouth, Nova Scotia.

Plan Ahead

by JANE DEE

HAVE you realized that Easter is very early this year, and that Spring is just around the corner? Now is the time to plan your Spring wardrobe, when you have a few leisure moments to think out all the little details.

Perhaps you have started already and are wondering what is going to be smart? What the new suits are like? What the most popular fabrics for coats and dresses are? If prints are good as ever? What the leading colors are, and if the hats are worn forward or back off the face?

These and any other fashion problems that you might have may be easily solved by writing to the Jane Dee Stylist Service, EATON'S Mall Order, Winnipeg, where personal attention is given to any enquiry regarding style.

Kindly remember that this is not a Shopping Service.

Jane Dee

EATON'S

HEALTH... yes... because Canadian Fish and Shellfish are rich in proteins, vitamins, minerals and iodine. But health is not all. There is tastiness... the varied flavour of over sixty different kinds of fish foods. There is economy... the sound thrift of a food that gives you full value in healthful nourishment for every cent you spend.

Make "Any Day a Fish Day". Whether fresh water fish or sea-food... fresh, frozen, canned, smoked, pickled or dried... you can be confident of the prime quality and flavour that have made Canadian fish famous throughout the world.

DEPARTMENT OF FISHERIES

Try This Appetizing Recipe

BAKED CREAM SALMON

1 1/2 lb. can Canadian salmon

1 pint milk

Salt and pepper

2 eggs, beaten

Free the salmon from bones and separate into bits. Cook the flour and butter together until browned, and add one pint of milk, salt and pepper and enough cream to make a thick sauce. Place a layer of sauce in a baking dish, then a layer of fish and so on, having sauce on top. Bake to a golden brown and serve very hot.

SARDINES LYONNAISE

Chop together cold boiled potatoes, one small onion, the contents of one tin of Canadian sardines (drained); fry with butter or beef fat until browned and serve with parsley.

CANADA MUST TAKE MEASURES FOR ITS DEFENCE

Ottawa.—The House of Commons rejected the neutrality resolution of James S. Woodsworth, C.C.F. leader. The Woodsworth resolution was rejected without a recorded vote after Ernest Lapointe, minister of justice, speaking for the government, declared that in a mad world Canada must take steps to defend its shores and that he would not shrink his duty to support proper defence measures.

Fernand Rinfret, secretary of state, declared the resolution was "either futile or abominable." If some power sent an expeditionary force against this country, he declared it would not suffice for Mr. Woodsworth "to stand on the wharf at Halifax or Vancouver and wave his resolution."

Canada would cease to be neutral if foreign armies started shooting, he added.

Mr. Woodsworth ended the debate by asserting that "armaments mean war."

He ended with an attack on increased expenditures proposed in the national defence estimates and declared Canada appeared to be building up forces that would fit into the "imperialist machine like spare parts."

It was all very well to talk of neutrality," Mr. Lapointe said, but the nations of the world had been bound so closely together by science that the fate of one was associated with the fate of the other.

The proposed resolution was destructive rather than constructive. It would advertise that Canada would do nothing to prevent war, in spite of the fact that the supporters of the motion had "given lip service" to the League of Nations. Its adoption would mean Canada's withdrawal from the league.

He would not say the League of Nations had failed, but that some nations had failed the league and the resolution proposed that Canada add to those failures.

Neutrality, as proposed in the resolution, would mean secession of Canada from the British commonwealth of nations," Mr. Lapointe said.

It would mean Canada could remain on friendly terms with a country at war with Canada's king and remain on trading relations with an active enemy of the crown.

History had shown, said Mr. Lapointe, that when a crisis arose matters were not decided by resolution or even by laws which had been passed. They were decided by the circumstances of the time and, unfortunately, often by passions and feelings.

In Canada they should be decided by parliament and no one parliament could by any resolution bind any future parliaments.

"We are in a splendid position geographically," said Mr. Lapointe, "and we thank God for it. But we are mistaken if we believe that other nations are not thinking of Canada and its resources."

The problem of distributing natural resources among nations is far from being solved and Canada's resources were coveted in certain parts of the world.

If there was a war arising out of the conflict between Communist and Fascist doctrine Canada should not spend one cent but one life in defence of either of them," he said.

Even at the height of the fight against conscription in 1917 every French-Canadian was ready to give his life for the defence of Canada.

Drafting Airway Bill

Plans For Western Route Will Give Good Service

Ottawa.—Bill establishing a company to operate the trans-Canada airway is being drafted by legal experts and is to be introduced in the House of Commons, transport department officials said.

Plans for the western route are understood to envisage the delivery in Winnipeg in the morning of air mail posted after the close of the previous day in Toronto, Montreal and adjoining points. On the west-bound flight the plane would reach Vancouver in the afternoon. East-bound flights would leave Vancouver early in the afternoon and cross the mountains before dark.

Improvement Is Shown

Toronto.—Canada's per capita income improved 10.3 per cent. in 1936 over 1935, R. J. Wright, director of research of J. J. Gibbons Company, told a service club meeting here. The figure showed a total income increase of more than \$440,000,000, he said.

War Spirit Rampant

Excludes All Considerations Of Morality In International Relationships

Toronto.—Unsettled conditions throughout the world were due to nations reverting to the pre-war conception of relationship between governments, said J. W. Dufoe, editor-in-chief of The Winnipeg Free Press, in an address to the Women's Canadian Club here.

"The post-war idea of the keeping of peace being an obligation upon all nations has been 'submerged,'" he stated. "It may return, of course, but for the time being that great idea has vanished from the world and we are back to a conception that excludes all consideration of morality in international relationships."

Before 1914 when the possibility of war was suggested conditions were just a Sunday school picnic compared with the naelestrom of enmity, passion, ambitions and preparations existing at present.

"It is not possible to be optimistic," Mr. Dufoe said. "If the piling up of armaments, the regimentation of people and the constant interchange of threats between nations must continue, war is inevitable, given time and perhaps it will come soon rather than later."

Ship Battered At Sea

Norwegian Captain Reports Storm Worst Experienced In 50 Years

London.—Storm battered, the Norwegian steamship Tiltthorn reached the Thames from Vancouver without a foremast, its boats smashed in and most of its deck cargo of timber missing.

Captain R. Rasmussen said a four-day, mid-Atlantic storm was the worst he had known in his 50 years at sea. The steering gear and rudder were smashed by high seas, the crew's quarters were flooded, and the gale broke the wireless equipment and carried away the foremast.

Temporary repairs were effected to the rudder and wireless after the storm blew itself out.

The Tiltthorn was the second craft from Vancouver within a week to report a hammering from the storm. The British freighter Geddington Court reached Liverpool with two-thirds of her deck cargo gone, her mainmast smashed, the rear topmast lost, and ventilators stored in and deck rails partially stripped.

Attacked By Wolves

B.C. Woodman Had Narrow Escape When Little Carriage Mired

Attnarko, B.C.—A thrilling tale of escape from death when attacked by a pack of seven wolves near this settlement 250 miles north of Vancouver was told by Ralph Edwards, veteran woodman and fur-breeder.

Edwards said he was on his way to Attnarko from his home at Lone, some Lake nearby when he saw the wolves coming toward him. Armed only with a .22 calibre rifle and carrying but few shells, Edwards waited until the leader of the rear topped the hill before firing.

His delay nearly proved fatal. The first carriage mired, and the wolves were almost upon him when the leader fell under a second shot.

The woodman managed to escape while the ravenous animals halted over their fallen leader.

U.S. Flood Loss

Economists Estimate Loss Around Six Hundred Million Dollars

Washington.—United States government economists estimated the flood loss to business in stricken areas will total around \$600,000,000, based on loss of business property and equipment, crippled trade and weakened purchasing power. The estimate did not include damages to homes and other losses of private individuals.

Geological Surveys

Ottawa.—Last year 200 students took part during the summer in geological exploration-work organized by the department of mines, Hon. T. A. C. Bennett, minister of mines and resources, said in a return tabled in the House of Commons in reply to a question by C. B. Forland (Lib., Joliette—L'Assomption—Montreal). This number compared to 546 in 1935, 53 in 1934 and 25 in 1933.

Will Receive Honorary Degree

London, Ont.—Sir Josiah Stamp, noted British economist, will receive an honorary degree of doctor of laws from the University of Western Ontario at the June convention. He is expected to sail May 19 for New York coming directly to London with his wife.

Writ Seldom Used

Man Held By Edmonton Court As Surety For Brother

Edmonton.—Taken into custody on a seldom-issued writ of fieri facias, William Sawchuk was held by police here. William had signed a \$100 surety for the appearance in police court of his brother Steve.

But Steve failed to appear when his name was called in court, so court officials decided to hold William until either the \$100 is paid or Steve returns.

Literary translation of fieri facias is "cause it to be done," but in this case it is a writ to collect a sum due the crown.

Have Become Menace

Antelope Are Damaging Farm Property In Southern Alberta

Lethbridge.—Antelope herds have become a menace to ranchers in southern Alberta.

Gaunt and hungry, their feeding grounds piled under deep snow drifts, the animals are wandering from their natural haunts destroying ranch and farm property and devouring hay stacks.

A herd of 30 was reported within a few miles of Lethbridge, the first time in years the animals have come so close to the city limits.

UNITED AIR SERVICE SEEKING MAIL CONTRACTS

Ottawa.—Three air services whose operations cover all Canada except the Maritime provinces have merged as United Air Service and are seeking federal government air mail and passenger contracts, Leigh Brintnell, prominent Western Canada airman, said here.

The new company is composed of MacKenzie Air Service, of which Brintnell is president, Wings Limited and General Airways.

With the bill for the proposed trans-Canada airway being prepared for presentation to the House of Commons, it was reported several other prominent Canadian air services have approached the government with a view to obtaining contracts to fly mail.

Speaking of the trans-Canada airway, Brintnell said good lighting, electric beacon service, emergency landing fields, radio beam and a well organized meteorological weather bureau were essential to successful operation.

He felt Canadian pilots could handle large transport or passenger planes with the necessary competence after a short training in flying by instruments.

"The hazards of flying the Canadian north have developed expert pilots," he said. "Our pilots have proved as good as any pilots anywhere, and I feel confident they could fly a scheduled route without difficulty."

Modern high-speed planes would not necessarily require large airport facilities, he said, contending the 200-mile-an-hour ships can land on any normal airport.

RESIGNS

Hon. Charles Cockcroft, Provincial Treasurer in the Alberta Social Credit Cabinet, who has resigned. This is the second cabinet resignation in the Alberta Cabinet within a month.

For New Outlook

Hon. T. D. Pattullo Speaks Of Attitude Of East Towards The West

Montreal.—People of eastern Canada, in the opinion of Hon. T. D. Pattullo, would do well to search for a new attitude toward western Canada.

Declaring western Canada understood the east because "most of us come from there," the British Columbia premier declared in a press interview that it was a waste of time trying to apply regimented views, which the east seemed to be taken with, to westerners and western conditions.

"We are essentially individualists," declared the premier.

He suggested the atmosphere was becoming befogged with generalities about finances. The east, he said, still was thinking of the west as a peculiar problem, whereas westerners, with their own peculiar problems, were trying to move ahead progressively and safely.

Referring to British Columbia, the premier said: "Undoubtedly the province is prospering, and that prosperity cannot be laid to any one industry. It is the result of a wide-spread development."

Paid Its Way

Post Office Department Shows Slight Profit For 1936

Ottawa.—During the past year the post office department more than paid its way. Hon. J. C. Elliott, postmaster-general, told the House of Commons. Last year's receipts were \$41,117,199, less \$6,816,164 paid to commission postmasters.

Total disbursements were \$30,100,000 but this did not take into account rentals and maintenance of buildings.

Favor Investigation

Toronto.—The Toronto Academy of Medicine has forwarded a resolution to Sir Lyman Duff, chief justice of Canada and chairman of the trustees of the King George V. cancer fund, endorsing proposed establishment of a national committee to investigate claimed cancer cures.

FLOOD VICTIMS FIGHT PESTILENCE

The sign above a Cincinnati emergency relief cafeteria, warning volunteers to wash their hands in solution, is graphic indication of the precautions taken to avoid a widespread epidemic as a result of unsanitary conditions following the flood.

Reject Amendment

No Restrictions Will Be Placed On Performing Right Society

Ottawa.—Efforts to curb further the activities of the Canadian Performing Right Society were defeated in the House of Commons when, at the recommendation of Secretary of State Fernand Rinfret, an amending bill introduced by W. K. Esling (Con., Kootenay West) was rejected by a vote of 91 to 65. It was the first division of the session.

The Canadian Performing Right Society, incorporated under Dominion charter, claims copyright control over nearly 8,000,000 musical compositions. It collects \$70,000 as a blanket fee from radio stations for use of these numbers. About \$60,000 a year from theatres, and exacts a minimum fee of \$5 for the dissemination of its numbers through loud speakers and phonograph records in lodge halls, rinks and such public places.

Mr. Esling's bill proposed two amendments. One would have made it necessary for the society to furnish to applicants for licenses to use their works a list of compositions to which it held title. The other would have abolished the fee for use of loud speakers and phonographs in lodge halls and such places.

Ruling Was Necessary

Duty Exemption Does Not Include New Tires In Use

Ottawa.—Automobile tires on wheels and in use are not baggage but tires in the back seat are, the national revenue department has ruled. Hon. J. L. Halsey, head of the department, told the House of Commons the ruling was due to the limitation of the \$100 duty exemption on goods brought back from other countries by Canadian travellers to goods "included in the baggage."

M. J. Colville (C.C.F., Rosemont-Biggar) told of a case where a man bought four new tires for his car in the United States and at the border was compelled to take them off and drive his car across on the rims in order to get them in free.

Mr. Halsey said the interpretation of the law had caused difficulty but the department could not stretch it to the point of regarding tires on a car as baggage.

STRIKE POLL IS TO BE TAKEN BY RAILWAY MEN

Montreal.—A strike poll of 117,000 Canadian railwaymen was labor's answer to the MacLean conciliation board's majority recommendation of only partial wage cut restoration.

The threatened strike would completely tie up Canada's railway system, according to Howard B. Chase, chairman of the general committee representing 17 running trade unions which decided in a conference here to send out the strike ballots.

Flatly rejecting the board's majority report, the committee took the stand it would accept no agreement based on any formula relating to railway gross revenues as set forth in the report.

As soon as the decision was reached, union heads made immediate preparations to submit the strike poll to all but 10,000 of the unionized employees of the Canadian railroads. The exempted 10,000 consist of certain classes of Canadian National Railway workers affiliated with the Canadian Brotherhood of Railway Employees, who are negotiating separately with a conciliation board at Ottawa.

"In a very few weeks," according to Chase, chief of the Federation of Locomotive Engineers and Firemen, ballots should be in, and union leaders will know whether to call a general walkout on accept on behalf of the men gradual reduction of their 10 per cent. cut to seven per cent. during this year.

The majority report of the three-man board, prepared by Mr. Justice MacLean, and W. Sanford Evans of Winnipeg, nominee of the railways, recommended partial and gradual restoration of cuts.

The plan provides for reduction of the cut to nine per cent. Feb. 1, another reduction to eight per cent. by Aug. 1, and a third to seven per cent. by Nov. 1, providing enlargement of these reductions if gross revenues of the railways exceeded certain sums in the meantime.

The minority report, presented by Fred Bancroft, Oakville, Ont., workers' representative, urged complete restoration of the wage cut by Nov. 1. Bancroft said company earnings should not be considered.

DOMINIONS IN AGREEMENT WITH REGENCY BILL

London.—The amended regency bill was approved without division in the House of Commons after Attorney-General Sir Donald Somervell stated the Dominions had agreed to it.

"The Dominions have been kept informed and have agreed to our passing a bill for the United Kingdom," he said. "The exact effect that the bill will have on them (the Dominions), in our view, is a matter for them to consider and if any state-ment should be made it is for them to make it."

"It would be very unwise," he added, "for the United Kingdom government to make statements on this matter."

The bill was sent to the house of lords. It provides, briefly, for appointment of a regent in the event of a sovereign becoming wholly incapacitated or of a sovereign acceding to the throne under the age of 18 years. The regent would be the adult next in line of succession. That is, should the king become incapacitated or die before the age of 18 the regent would be the Duke of Gloucester, the king's brother.

Labor assailed provisions of the bill which would form a committee of six, any three of whom could act, to decide whether or not a sovereign was wholly incapacitated.

Finally an amendment was carried deleting from the group the person who would be regent, leaving the group to be comprised of the husband or wife of the sovereign, if more than 18 years of age, the lord chancellor, the speaker of the house of commons, the lord chief justice and the master of the rolls. Any three or more of these persons could act.

At the insistence of D. G. Logan, Labor, the home secretary, Sir John Simon, expressed willingness to ensure the advice of a physician would be sought before the group reached a decision as to the sovereign's capacity to act.

A charge by William Gallacher, Communist, that the bill was directed against the present occupant of the throne brought a heated reply from Earl Winterton, Conservative, who said the assertion was "monstrous" and without the slightest vestige of foundation.

Many Clauses Obscure

Commission Counsel Asks For Clarification Of Customs Act

Ottawa.—Clarification of the Customs act was recommended by J. C. McRuer, commission counsel, as argument continued before Justice W. F. A. Targuen's royal commission probing the textile industry. Obscurity of many of the clauses of the act relating to dumping duties was commented upon by counsel.

Section 36 of the Customs act sets forth that "the value for duty of new or unused goods shall in no case be less than the actual cost of production in the country of origin, established the cost of production of any goods in Japan of United States, the commissioner asked."

"It cannot," replied Mr. McRuer. He recalls the difficulties experienced by the commission in its efforts to get production costs of goods in Canadian factories, as emphasizing the impossibility of obtaining these particulars in foreign countries.

Asks Quotations On Wheat

Government Of Spain Plans To Import 300,000 Tons

Valencia, Spain.—The Spanish government announced it would receive price quotations on 300,000 tons of wheat it plans to import.

The wheat must be convertible into at least 75 per cent. of its volume of flour with a minimum of 40 per cent. reference would be given to offers made in a Mediterranean port, particularly if based on an exchange for Spanish products, such as olive oil.

It was insisted the price quoted at the time of the offer must be subject to no future change. In line with civil war requirements, the industries ministry requisitioned all stocks of cotton, wool, silk and their by-products, either raw or manufactured.

Undersea Broadcast

Kinable, Irish Free State.—Standing 300 feet below the Atlantic's surface on the bulk of the Lusitania, Captain John Craig will broadcast to North America May 7, the 22nd anniversary of the liner sinking by a German submarine with a loss of 1,198 lives. The program will mark the climax of salvage operations begun after the wreck was located in October, 1935.

A Big Bargain

We have completed arrangements with The Calgary Herald, by which we are able to offer

THE CALGARY DAILY HERALD
AND
THE BLAIRMORE ENTERPRISE

Both for 1 Year \$8.60

To THE BLAIRMORE ENTERPRISE,
Blairmore, Alberta.

I enclose herewith the sum of EIGHT DOLLARS and SIXTY CENTS in payment of Subscriptions to The Calgary Daily Herald and The Blairmore Enterprise, both for one year. The papers are to be addressed as follows:

Subscriber's
NAME.

ADDRESS.

MAIL COUPON TODAY TO
THE BLAIRMORE ENTERPRISE
Blairmore, Alberta

Wilfred Goddard is still confined to his room through illness.

Mayor and Mrs. George Pattinson have returned to Coleman from a holiday visit to the Pacific coast.

Hon. Elihu Root, famous United States statesman, passed away in New York on Sunday at the ripe age of 92.

Pass roads are still blocked to traffic. It is possible, however, to negotiate the trails and detours between Blairmore, Coleman and Bellevue, but Hillcrest is absolutely isolated.

The victory dance held in the Community hall on Monday night was very largely attended, and was kept up till 3 o'clock on Tuesday morning. During the dance the successful election candidates were welcomed.

United States justices can retire at 70 on full pay.

Mr. and Mrs. G. A. Passmore returned home from California on Friday last.

Prior to February the 10th, 1937, there was never a creature registered at the Ponoka asylum with a rhinoceros hide.

Owing to the condition of the roads, very few from Blairmore were able to attend the ice carnival at Coleman Crystal rink on Wednesday night.

The remains of John T. Donny, jeweler, who died at Macleod last week, were forwarded to Brampton, Ontario, for burial. In August, 1910, he married Miss Maimie Guess, of Macleod, who survives him.

Local and General Items

The Editor will be pleased to receive items for this section, regarding visitors entertained, parties leaving for holidays or short trips, bridge parties, teas, etc. Phone items in to 11 or hand them in at The Enterprise office no later than Wednesday evenings.

James Hansen has been re-elected mayor of Taber.

"Dad" Bill Harrison was unable to get to the polls on Monday, through illness.

Gordon Steeves and Dr. H. B. Hoar, who had been confined to their homes with flu for several days, are around again.

Harry Clements, formerly of the staff of Fraser-McRoberts Co. at Pincher Creek, is reported quite seriously ill at Nelson, B.C.

A. Bosetti and W. H. Chappell returned Saturday night from Edmonton, where they attended the annual convention of the Alberta Trustees Association.

Celebrate success! Those who were successful in losing out in Monday's municipal and school elections celebrated the event in a most joyous and friendly manner on Tuesday.

Elsewhere in this issue will be found the annual statement of the Sun Life Assurance Company of Canada in brief form. Mr. C. J. Tompkins, of Blairmore, is local district agent.

At the adjourned meeting of the congregation of Central United church on Sunday night, a full board was elected, three for a three-year period, three for a two-year period, and three for one year. A hearty vote of thanks was accorded all who assisted in any of the departments of the church during the year just closed.

Mrs. P. Chardon was a visitor to Fernie this week.

Inspector C. C. Bremner is this week making the rounds at the local school.

An article in an Alberta paper mentions "women" and "M.P.'s" wives. We always had an idea there was a slight difference.

Full interest rates will be paid by the Edmonton school board on \$47,500 worth of its debentures held by the Workmen's Compensation Board.

In the good old days spooners used to pull down the blinds and turn down the gas. Nowadays they have better lights, leave the blinds up and give the neighbors an eye-ful.

And this cannot be "denied!" A few days ago we were shown a photograph of a little outbuilding, with the inscription on the side: "The first stage clearing house in Alberta."

A highly successful Sunday evening concert was staged at the Columbus hall by the young people of St. Anne's Catholic church on Sunday last. The concert took the form of a radio broadcast by Major Bowen's amateurs.

In the opener of the play-off in the Alberta Intermediate hockey series for the Black Cup, the Bellevue Bulldogs went down to defeat before the Blairmore Bears at the local arena last night 7-2. A fast and clean game was witnessed by a mere handful of people. The ice was in excellent shape.

The SNAPSHOT GUILD

DEPTH OF FIELD— What Does It Mean?

ALTHOUGH good picture-taking with a focusing camera depends in a large measure upon obtaining the proper depth of field (or as sometimes called depth of focus) for the subject, some little uncertainty exists (even in the mind of some who are no longer beginners) as to precisely what this phrase means.

By depth of field we mean really depth of definition, or the distance from nearest to farthest object from the lens that is sharply defined.

Depth of field is controlled primarily in two ways. One is by the aperture in the diaphragm of the shutter. Using a smaller aperture increases the range of definition. Depth of field also depends upon the distance for which the lens is focused. The greater the distance, the greater the depth. When the lens is set for 25 feet, for example, at some particular diaphragm setting, the depth may be from 15 feet to 50 feet. Objects closer than 15 feet will appear blurred, the blurring being more noticeable for objects closer to the camera. When the camera is focused for objects close to the camera, the depth is quite small. For example, when focused for 6 feet, the depth might be from 6 feet to 8 feet, again assuming a particular diaphragm setting. Objects beyond will be blurred.

Isn't there a way, you ask, to get good definition of both near and far objects? Yes, if you want it. This is done by using a small aperture, and since less light comes through a small aperture, giving a little longer exposure.

An experiment may be easily performed that will give a visible demonstration of the need of proper focusing on the object that you want to be clearly defined. Remove the back of your camera and open the shutter after setting it for "time." Place the camera on a table pointing it out of a window towards some fairly distant object such as a house or tree. Next, place a small piece of ground glass at the back of the camera. Now operate the diaphragm changing it from a large opening to a small one, while watching the image which will appear (upside down) on the ground glass. Note how the image changes in definition as the size of the opening is changed.

Then move the lens forward and back on the distance scale. Note that there is one certain setting at which the image is especially sharp and clear. At other settings it is more or less blurred and indistinct. Now having secured a sharp image of the distant object, observe the image of some nearer object, such as a vase of flowers on the

Effect of large stop (f4.5) with lens focused on background.

Effect of large stop (f4.5) with lens focused on foreground figure.

Effect of small stop (f16), gives greater depth, but main subject loses emphasis.

window sill, say at 6 feet from the lens. The image of the flowers will appear blurred. If the lens is moved forward on the scale, a setting can be found which will give a sharp image of the flowers, but the image of the distant object will be blurred. The experiment should then be tried both with the largest and the smaller stops, when it will be found that if a small stop opening is used it is possible to have both near and far objects reasonably sharp at the same time.

LETHBRIDGE

ALBERTA

Floods are now reported in England and France, with heavy rains.

In Monday's civic elections at Macleod, J. W. McDonald, K.C., was re-elected mayor.

The low mark for the season was reached here on Monday morning when the mercury touched the fifty below point.

R. J. Dinning, Alberta liquor commissioner, has resigned, according to radio broadcast last night. Reasons given do not include "failing health."

Asked as to whether or not the red element were returned to the school board in a neighboring town, the reply came: "Well, not exactly Red, but a most brilliant Pink!"

Word has been received of the death of Mrs. Rhoda, of Lundbreck, from pneumonia. Few details are at hand, but it is understood the remains are to be laid to rest at Pincher Creek today.

Messrs. Robert Gray and W. Johnson, of the local warehouse staff of Plunkett & Savage, and W. A. Vaughn, manager of the local distributing warehouse of Western Groceries Limited, left for Calgary yesterday to attend the annual meeting of Western Grocers Limited.

Homes in the Canmore area are again threatened by flood waters.

Premier William Aberhart may represent Alberta at the coronation.

Rev. W. M. Rochester, D.D., of Toronto, has been elected moderator of the Presbyterian Church in Canada.

The fishing season is liable to be here before the tests of some of the new snowplow devices are completed.

At a recent Fish and Game Association banquet: "Ladies and gentlemen, before I begin my address I have something I want to say to you."

Three thousand gallons of black diamond rum (625 kegs) and two motor trucks were seized by mounted police recently near Truro, N.S. The liquor was valued at \$50,000, the biggest haul ever made in that country.

Ten Years From Now---What?

IT RESTS with you whether you will gain health or grow less fit, day by day. You can turn food into health. Stop dosing up with make-shift tonics. Eat plenty of

MEADE'S HONEY BREAD

The loaf that assures health and enjoyment in the same mouthful. Fine texture, tempting flavor, high food-value in one delicious loaf.
